
R-Go Split, Compact and Numpad Break

Meet our intelligent ergonomic keyboards

with personal break coach

With break indicator

Our Break keyboards are equipped with a break indicator, which alerts you with color signals when it's time to take a break.

Also in Split variant

The R-Go Split Break consists of two separate parts for maximum freedom. Prevent RSI-complaints by typing with straight wrists.

Ultra-thin design

The keyboard is ultra-thin which reduces muscle tension and stimulates blood circulation. This prevents physical complaints.

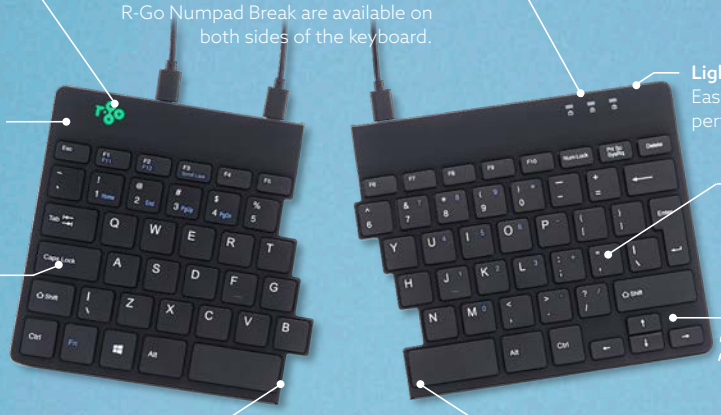
Patented break indicator
Download the R-Go Break software via **www.r-go-break.com**

Connections for Numpad Break
USB connections for connecting the R-Go Numpad Break are available on both sides of the keyboard.

Ultra-thin design: 9 mm
Ultra-thin design to ensure relaxed, flat wrists during typing.

Compact model
With this compact design your hands always remain within shoulder width. This natural posture prevents RSI complaints.



Lightweight
Easy to take with you, making it perfect for on the road!

Light keystroke
The special scissor mechanism in the keys provides a light keystroke so you need less strength to type.

100% Recycled plastic
The plastic used for this keyboard is 100% recycled.

Built-in magnet
Turn the Split Break keyboard from split to compact in one movement.

Wireless variants
The Compact Break and Numpad Break keyboards are also available in wireless variants, with an accu lifetime of 80 hours.

Creating healthy workplaces | www.r-go-tools.com

Because we care.

With personal break coach

R-Go Break indicator

Short movements during your working day are vital for your health! Micro breaks prevent overloading of small muscles and tendons and improve your concentration. Because breaks are often forgotten when you are focused at work, we've developed a break tool that reminds you to interrupt your work on time.

The patented R-Go Break software uses colour signals to indicate when it's time to take a break. During keyboard usage, the light changes colour, like a traffic light:

- Green: good job!
- Orange: time for a short break
- Red: You've been working too long

This way you will get positive feedback about your break behaviour. Download the R-Go Break software.

You've worked too long

You are working healthily!

We care for our environment

- All plastic used for our keyboards is 100% recycled.
- **Lifetime recycle guarantee**: we ensure that our keyboards are recycled at the end of their service life, when returned to us.
- We are a member of **WEEE**, a European directive that regulates the collection and recycling of electronic equipment.
